

Comparison table of functions between new and old valves

ITEM NO.	FUNCTION											
	Up-flow Regeneration	Down-flow Regeneration	Softening water Regeneration	Tap water can be used when regeneration	Dry and wet salt regeneration can be choosed	Leak protection	Salt shortage reminder	LED Screen	LCD Screen	Remote wireless control	WiFi control	Lithium battery
old valve (IMT-P-EV6/EV8))	√	√	×	×	√	√	√	√	×	√	√	√
New valve (IMT-P-EV6/EV8 Pro)	√	×	√	√	√	√	√	×	√	√	√	√
New Valve (IMT-P-EV6/EV8 Plus)	√	√	×	×	√	√	√	×	√	√	√	√

Remarks:

- 1, The old valve cannot use raw water during regeneration and lacks soft water regeneration. The LED screen parameter settings may not intuitive and have no text prompts(not easy for operation). Both upflow and downflow regeneration options are available.
- 2, The new valve Pro allows simultaneous use of raw water during regeneration and incorporates soft water regeneration. The LCD dot matrix screen provides intuitive parameter settings(easy for operation) with text prompts. Only upflow regeneration is available.
- 3, The new valve Plus cannot use raw water during regeneration and lacks soft water regeneration. The LCD dot matrix screen offers intuitive parameter settings with text prompts(easy for operation). Both upflow and downflow regeneration options are available.
